Prompt Engineering: Smarter Use of AI for Everyone

Sifat Ali

COO @ Fluvo Soft | AI/RAG Systems Engineer | Full-Stack Builder |
2x National Hackathon Winner

Dhaka, Bangladesh

Summary

I build scalable AI-Automation systems and full-stack solutions that solve real-world problems. As a technical founder and engineer with 5+ years in software development, I've shipped products from concept to scale Web technology, EdTech platforms, Bioinformatics research, AI-powered tools. 2x National Hackathon Winner.

Experience

Fluvo Soft

Chief Operating Officer

January 2026 - Present (5 months)

Dhaka, Bangladesh

As the Chief Operating Officer at FluvoSoft. Here, operations management involves performing daily operations and ensuring the effective implementation of software projects within organizations. To achieve this, I collaborate with other departments such as product, engineering, and business, in order to develop scalable web and mobile applications, artificial intelligence systems, and deliver SaaS offerings of high standard by meeting specific business requirements. My responsibility lies in integrating technology, business, and employees for steady business growth.

UIU Developers Hub

1 year 8 months

Developer

October 2024 - Present (1 year 8 months)

United City R/A

As a developer in the United International University developer hub community, I build innovative tools like PyDitor and Sir Kothay? to enhance learning and collaboration. I also help others by providing guidance on React.js, Python, and AI, fostering a supportive environment for students and faculty. My role bridges technology and education, empowering the community with practical solutions.

Community Coordinator

October 2024 - Present (1 year 8 months)

United City R/A

As a Community Coordinator for UIU Developers Hub, I engage and support members through events, content creation, and technical assistance. I work to grow the community by fostering collaboration and sharing valuable resources. My focus is on creating an active, positive space for learning and development in tech.
